**Skin:**

Remove contaminated clothing and shoes. Wash clothing before reuse. Wash affected areas with soap and water. Get medical attention immediately if irritation (redness, rash, blistering) develops and persists.

**Ingestion:**

DO NOT INDUCE VOMITING UNLESS DIRECTED TO DO SO BY MEDICAL PERSONNEL. Never give anything by mouth to an unconscious victim. Get medical attention immediately.

**Inhalation:**

Remove the person from the contaminated area to fresh air. If breathing is difficult, trained personnel should administer emergency oxygen if advised to do so by POISON CENTER/doctor.

**Information for Doctor:**

Symptomatic treatment and supportive therapy as indicated.

**Most important symptoms and effects, both acute and delayed:**

May cause skin or eye irritation upon contact. Avoid breathing vapors. The dense vapors can displace and reduce breathing air in confined or unventilated spaces causing asphyxiation. Overexposure may cause tremors, confusion, irritation and may result in cardiac sensitization.

N/A

**Skin Contact:**

Wash with soap and water at first opportunity

## 5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media:**

Water, dry chemicals, CO<sub>2</sub>

**For safety reasons unsuitable extinguishing agents:**

None

**Special hazards arising from the substance or mixture:**

During heating or in case of fire poisonous gases are produced.  
Overheated containers may rupture due to pressure produced.

**Advice for firefighters:**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk without suitable training. Stay up-wind and keep out of low areas where gases (fumes) can accumulate.

**Protective equipment:**

Firefighters should wear NFPA compliant firefighting protective equipment, including self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. PVC boots, gloves, safety helmet and protective clothing must be worn. Avoid contact with product. Decontaminate equipment and protective clothing prior to reuse. If material is spilled or released and exposure likely, evacuate area and fight fire from a safe distance or a protected location.

**Additional information:**

Keep people away. Isolate fire and deny unnecessary entry. Use water spray to cool fire exposed containers. Fight fire from protected location at a safe distance. Move container(s) from fire area if this is possible without hazard. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage. Contain fire runoff is possible as it may cause environmental damage.
